

IMPROVE PERFORMANCE, LOWER COSTS

Donaldson M113 Air Cleaner Retrofit Kit

Designed Specifically for M113A1 and M113A2 Vehicles*

Our air cleaner upgrade kit provides improved engine performance and lower life cycle costs. Field-tested technologies – including Donaldson Ultra-Web® Nanofiber Filtration Technology, Donaldson RadialSeal™ sealing technology and Donaldson Strata™ Tubes – deliver superior engine protection in harsh environments, with total system efficiencies up to 99.99+ %.

- Cost Savings – kit will reduce purchasing costs by increasing engine life up to 4 times
- Easy installation – no vehicle modifications
- Easy servicing – no tools required
- Easy to purchase – single part number X009288

RadialSeal™ filter featuring Donaldson Ultra-Web® Nanofiber Filtration Technology offers longer filter life and better sealing than the original axial seal filter

Pre-cleaner featuring Donaldson Strata™ Tubes

* Replaces air cleaner 11598003 and filter assembly 11598399.

Greater Vehicle Mission Availability

Extended service intervals allow your vehicles to be ready and available when needed. Longer filter life lowers maintenance costs – saving on both parts and labor.

Donaldson Ultra-Web® Nanofiber Filtration Technology Features:

- Patented nanofiber filtration technology
- Higher capacity for longer filter life
- Keeps contaminant on the surface making it easier to clean
- High filter efficiencies

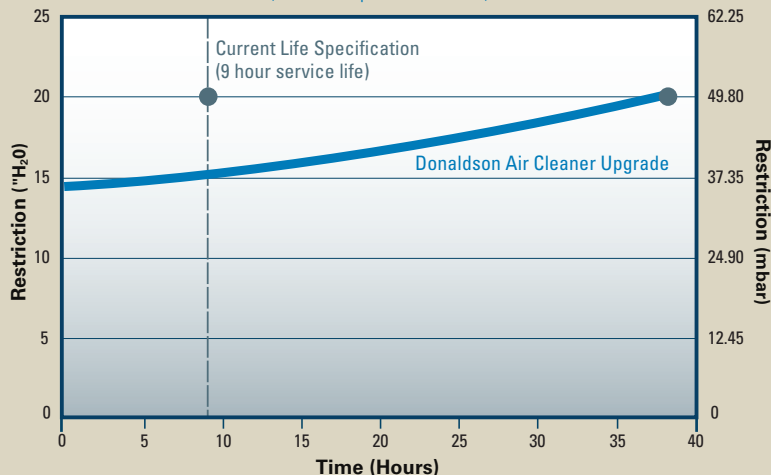

ULTRA-WEB®

Donaldson Strata™ Panel Features:

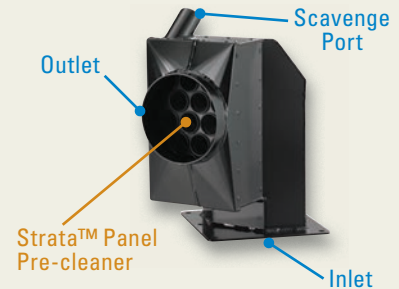

- Inertial particle separation technology spins dust aside which improves the life of the primary filter
- High efficiency, light-weight and minimal maintenance required
- Used on many military applications such as M1 Abrams, M113A3, Bradley and Stryker Vehicles

M113 Air Cleaner Life

(when tested per MIL-PRF-62048)
